

AddStartupVolumeInfo

```
graph LR; A[AddStartupVolumeInfo] --> B[AddBytes]; B --> C[RAND_add];
```

The diagram illustrates a three-step process flow. It begins with a box labeled 'AddStartupVolumeInfo', which is shaded gray. A dark blue arrow points from this box to a second, white box labeled 'AddBytes'. Another dark blue arrow points from the 'AddBytes' box to a third, white box labeled 'RAND_add'. All boxes have a black border and are arranged horizontally.

AddBytes
