

gost_ctx

```
graph BT; gost_hash_ctx[gost_hash_ctx] -.->|cipher_ctx| gost_ctx[gost_ctx];
```

The diagram illustrates a dependency between two context structures. At the top is a white rectangular box labeled 'gost_ctx'. Below it is a gray rectangular box labeled 'gost_hash_ctx'. A dashed purple arrow points from the 'gost_hash_ctx' box up to the 'gost_ctx' box. To the right of the arrow, the text 'cipher_ctx' is written, indicating the specific context or data being passed between the two structures.
