

s2n-master/api/s2n.h

```
graph TD; A[s2n-master/api/s2n.h] --> B[sys/types.h]; A --> C[stdint.h];
```

The diagram illustrates a header file dependency. At the top, a gray box contains the text 's2n-master/api/s2n.h'. Two blue arrows originate from the bottom center of this box and point downwards to two separate white boxes. The left box contains 'sys/types.h' and the right box contains 'stdint.h'. Both boxes have a thin gray border.

sys/types.h

stdint.h
